Get rid of your network cables. With this wireless access point you can either upgrade your existing wired network to a wireless network or use it as a bridge/client to make every product with a LAN port wireless. The wireless connection has a maximum speed of 150Mbps. It is compatible with all Wi-Fi enabled devices using 802.11n (max. 150Mbps), 802.11g (54 Mbps) or 802.11b (11 Mbps). You can use multiple access points in repeater mode to expand your wireless network even further. Optimal out-of-the-box security is ensured by the preconfigured WPA(2) (Wi-Fi Protected Access) setting. Other security features include WEP encryption and MAC filtering. Nonetheless it is very easy to connect to the secured network thanks to the integrated WPS (Wi-Fi Protected Setup) features.

300Mbps 11N Wireless Router & Access Point

871909010634

10

This 300Mbps (802.11n) wireless high speed broadband router and access point shares a existing cable or DSL modem with several computers and can create a (wireless) network up to 64 computers. This device is downwards compatible with 54Mbps (802.11g) & 11Mbps (802.11b) networks. The router & access point provides high security

C04-215 (C300APRA2)	300Mbps ADSL Router Access Point	8714909009669	10
		<p>This 300Mbps (802.11n) wireless high speed broadband modem and router is the all-in-one solution for your home. You can easily set up your internet access and share it within your wireless network. This is possible due to the fast 300Mbps wireless technology or the built in 10/100 4-ports router. Standard features like WPS, MIMO and QoS make this modem and router ideal to explore the internet while sharing files within your network and watching streaming media at the same time. This modem and router is compatible with all ADSL providers.</p>	

Antenna's

		EAN Code	Box Qty
C04-260 (CWLAN5)	5dBi High Omni Antenna	8714909010085	20
		<p>By connecting this wireless 5dBi omni directional antenna on your wireless router, access point or adapter it is very easy to boost the signal of your wireless network.
