Storage Player

		EAN Code	Box Qty
C08-139 (CFULLHDMAi)	Gigabit Full HD Media Player	8714909014588	5
	<p>The Grab'n'GO Full HD Media player is your personal bridge to stream digital media files to your TV in Full HD 1080p resolution. The built-in UPnP AV media client offers easy access to all your files from a compatible storage device (like the Grab'n'GO CH3MNAS) or your PC. The easy to install media player has a very sleek design and is the most flexible way to stream all your personal movies, music, radio channels or photos over your network. Thanks to the built-in BitTorrent client and SAMBA server downloading of/and browsing through your media is very easy. You can even connect a USB hard disk or flash drive to watch your digital media locally, thanks to the built-in USB host port. and To create the best cinema effect, the CFULLHDMAi has HDMI and Component connections for sharp images and HDMI audio support or a digital audio connection (S/PDIF) for overwhelming 5.1 surround sound. It is even possible to make the CFULLHDMAi compatible with the Conceptronic C300RU, a 300 Mbps 11n USB adapter, after which the consumer will be able to stream media files wirelessly. An 11n router (such as the C300BRS4A from Conceptronic) or a computer with an 11n client will be needed to ensure maximum enjoyment of Full HD films (if the film is being played wirelessly from the PC). It is possible to connect multiple USB devices (e.g. a C300RU wireless USB dongle + an external hard drive) to the USB host port. Conceptronic advises to use a powered USB hub, maximum number of supported devices may vary.</p>

Share and centralize videos, music, photos and other data in your network or through the Internet with this network hard disk. Thanks to the included FTP functionality you can access, download and upload data from/to this CHD3NET. Besides a sharing device, it is a perfect backup solution from and for any computer in the network. The hard disk also provides a USB port for easy connection to any other computer. This makes you more flexible for e.g. taking your company data with you and access it at your computer at home and vice versa. Additionally you can create private, password-protected folders on it.

The Grab'n'GO Media Store is a powerful dual bay HDD SATA network solution for sharing & storing media content like music, photos and videos at home or at the office. The built in UPnP AV media server offers easy access to all your media files through compatible media players (like the Grab'n'GO Full HD media player CFULLHDMAi) and stream media without using a PC. Besides media server, it's a full function NAS server with 500MHz CPU and built-in FTP server for file access via Internet and access-right management features to give users different read and/or write permission in the (Gigabit) network. To guarantee optimal functionality, the hard disks in the CH3MNAS can be configured as Standard, JBOD, RAID 0 and RAID 1, so it's up to you to set your priority to safety, flexibility or speed.
